

Husqvarna®

CHARGED WITH POSSIBILITIES

HUSQVARNA K1 PACE

HIGH POWER BATTERY CUTTER

EXPERIENCE THE FREEDOM

Husqvarna K1 PACE

Now you can move – and cut – in a new way. Without fuel, cords or direct emission. Experience the new Husqvarna K1 PACE high power battery cutter. See what you can achieve as you move freely from one task to another. Indoors or outdoors, no problem. This machine is ready when and where you are. And with all the power you need to get demanding jobs done. With ease.

A NEW KIND OF POWER

Ready when – and where – you are

Try our new Husqvarna K1 Pace high power battery cutter. Feel how it sets you free and allows your skills to shine. Enjoy the cleaner air, low vibrations and a quieter workday. Knowing you have the power to get the job done. Experience all the ways this machine is charged with possibilities.

HIGH POWER ON DEMAND

Just push the start button and experience the incredible power. More than enough for your 12" or 14" (300 mm and 350 mm) diamond blades to cut through rock hard materials in demanding work environments. Ready to get the job done – when and where you are.

FAST CHARGING

PACE Battery System keeps your Husqvarna K1 PACE up and running when it needs to be. Expect quick charging between shifts – and a machine that is easily available for work.

LESS VIBRATIONS

With Husqvarna K1 PACE, you can look forward to less vibrations and smoother cutting. While its low weight and optimum centre of gravity help reduce strain on your body. Making it a pleasure to work with.

MORE SILENCE

Now you can say goodbye to all the noise from an idling petrol machine, since you can turn on your Husqvarna K1 PACE as soon as you're ready to cut. This means less disturbance in parks, near schools and in other public areas – as you enjoy a quieter workday.

ZERO DIRECT EMISSIONS

With battery-powered Husqvarna K1 PACE, you can say goodbye to direct emissions. This means you can work indoors and outdoors. Helping to improve air quality at the jobsite. And that's good for you, your colleagues and the environment.

EASE OF OWNERSHIP

Built-in connectivity makes it easy to keep track of your machines – from service status to software updates – for maximum availability and productivity. And you no longer have to worry about using the wrong fuel. Just make sure that the battery is charged – that's all there is to it.

HUSQVARNA

CHARGED WITH

BUILT-IN CONNECTIVITY

Now you can stay on top of the runtime, location, service status and more of your machines and batteries. Giving you total control over your fleet for optimised availability and productivity.

X-HALT™ BRAKE FUNCTION

For your safety, Husqvarna K1 PACE features X-Halt™ a blade brake function capable of stopping the rotation of the blade in fractions of a second.

MAGNESIUM BLADE GUARD

The sturdy, low-weight blade guard covers a large portion of the blade to help protect you from the rotating blade, while the stepless position adjustment helps ensure an optimized cutting position.

SPECIALLY DESIGNED BLADES

High quality 12" and 14" (300 mm and 350 mm) diamond blades, specifically designed for the Husqvarna K1 PACE battery cutter to optimise its performance and maximise the cutting depth.

WIRELESS SOFTWARE UPDATES

Thanks to embedded connectivity, you can have easy access to software updates for both the machine and the battery.

DUST CONTROL

Keep dust under control with the integrated wet cutting system and the VAC attachment as an accessory for dry cutting.

A K1 PACE POSSIBILITIES

A MORE SUSTAINABLE CHOICE

An excellent alternative when work environments require zero direct emission in use. It contributes to significantly lower CO₂ emission than a fossil fuel equivalent and in terms of climate impact across its lifecycle.*

HIGH BATTERY POWER

With the PACE Battery System, you can look forward to the power and performance you expect from equivalent petrol-powered cutters.

ACTIVE COOLING

The chargers in the PACE Battery System are designed with Active Cooling to enable fast charging so that you can continue working in an efficient way.

FAST CHARGING

With PACE Battery System, you can expect fast charging and high power when and where you need it.

BALANCED DESIGN

For ease of use and to help reduce strain on your body, K1 PACE features a well-balanced, ergonomic design with an optimum centre of gravity.

PACE 

Powerful. Agile. Cordless. Electric.

A GROWING FAMILY

Husqvarna PACE Battery System

THE CHOICE IS YOURS

What's your cutting challenge? To meet your needs, Husqvarna K1 PACE is available in 12" and 14" machines and a 14" Rescue cutter. All give you high performance, precision and the reliability you need to tackle tough tasks.

K1 PACE 14"

K1 PACE RESCUE

MAXIMISED CUTTING DEPTH

Thanks to the innovative design of Husqvarna K1 PACE and its specially designed blades, the 12" model cuts almost as deep as a traditional 14" machine. And the 14" model has a cutting depth that's closer to a 16" machine. Why? So that you can take on more.

TECHNICAL SPECIFICATIONS

HUSQVARNA K1 PACE	12" (300 mm)	14" (350 mm)	RESCUE 14"
Motor	Brushless Husqvarna motor	Brushless Husqvarna motor	Brushless Husqvarna motor
Nominal voltage, V	94	94	94
Recommended batteries	B380X, B750X	B380X, B750X	B380X, B750X
Cutting depth, max mm	121	144.5	144.5
Max blade speed RPM	3800	3400	3400
Length (excl. blade), mm	648	648	663
Height, mm	400	423	423
Weight (excl. battery), kg	7.2	7.4	7.9

How soon do you reach break-even? It depends on several factors but probably sooner than you think. Above calculation is done by comparing investment cost of a equivalent petrol power cutter, fuel and maintenance cost (AVNSP) per hour vs. investment of a battery power cutter including battery and charger, electricity and maintenance (AVNSP) cost per hour. Swedish prices/costs including VAT (2021).

CUT OFF QUANTITY

BATTERY*	CONCRETE SLAB	GARDEN PLATE 400 X 400 X 50 MM	GRANITE 300 X 100 MM	CINDER BLOCK 390 X 150 X 167 MM	CONCRETE PIPE OUTER/INNER Ø: 335/225MM
					
B380X	2.5 m, full depth 144.5 mm in reinforced concrete	Up to 33 pcs	Up to 9 pcs	Up to 35 pcs	Up to 6 pcs
B750X	5 m, full depth 144.5 mm in reinforced concrete	Up to 81 pcs	Up to 18 pcs	Up to 93 pcs	Up to 18 pcs

* Cutting results may vary depending operator skills, ambient conditions, type of material and the quality of diamond blade and should be viewed as indicative only. For this chart a K 1 PACE 14" battery power cutter was used with Tacti Cut S35 Bat diamond blades. Running the batteries from fully charged to empty.

PACE BATTERIES AND CHARGERS

The sturdy design of the Husqvarna PACE Battery System enables usage in tough, heavy-duty conditions – indoors and outdoors. It is available in two battery sizes. Both give you high power, fast charging – and a job well done. So how long do you need to cut?

CHARGER C900X/C1800X

High power battery chargers with a capacity of 1800 W suitable for B380X and B750X PACE batteries. Equipped with a fast charging mode and active cooling – enabling fast charging of batteries.

FAST CHARGING TIMES

BATTERY	C900X CHARGING LEVEL	C1800X CHARGING LEVEL	NOMINAL VOLTAGE, V	ENERGY, Wh	WEIGHT, kg
					
 B380X	45 min	45 min	94	375	3
 B750X	75 min	45 min	94	750	5

BATTERY WATER TANK WT 15i

WT 15i is a compact 15 litre water tank with an electric pump suitable for wet cutting. Part of the Husqvarna i-Series battery product range with a compartment for a battery charger.

PACE DUST EXTRACTOR

Get ready for the DE 120 PACE – an H class dust extractor for heavy-duty action and powered by PACE. It is designed for larger hand-held cutting and drilling equipment and floor grinders, as well as core drills on a stand.

OUR BATTERY BLADES

You can look forward to diamond blades specifically designed to fit the power and the RPM of the Husqvarna K1 PACE high power battery cutter. Giving you better performance, optimal cutting depth, and reduced vibrations and noise. All of this, so that you can get the job done with ease and precision.

Husqvarna battery blades include the ELITE-CUT S35S with the innovative Exo-Grit segment and TACTI-CUT S35S. Also available is our all-round battery blade, the FR3 and a steel abrasive disc.

ELITE-CUT BLADE

Featuring the innovative Z-EDGE EXO GRIT segment, this diamond blade is specifically designed for the K1 PACE battery cutter and is intended for the intensive user. Smarter features include silent core, an enlarged outer diameter to increase cutting depth and thin segments to decrease friction.

TACTI-CUT BLADE

Specially designed to fit the power and RPM of the K1 PACE, the Tacti-Cut blade is intended for the occasional user or for initial cutting operation. It includes smarter features like silent core and offers a good Price/Hard-working performance ratio.

VARI CUT FR3

Has one layer of vacuum brazed diamond for fast cutting of a large variety of materials like tiles, stone, rebars, fibre board, PVC pipes and more.

ABRASIVE DISC BAT

Conventional abrasive disc specially recommended to cut metal and rebars.

NEW EXO-GRIT SEGMENT Feel how the innovative Exo-Grit segment and the smarter features make your Elite-Cut cutting smoother, faster and safer in a variety of materials. Experience it with our Elite-Cut blades.

STAY IN CONTROL WITH HUSQVARNA FLEET SERVICES™

INVENTORY CONTROL

All your Husqvarna K1 PACE machines, one screen. With Husqvarna Fleet Services™, you just check the inventory list, and you know exactly how many machines you have of each type. Give them unique names, and you can easily tell one from another.

COMPREHENSIVE MACHINE STATISTICS

The sensors track the running hours of your Husqvarna K1 PACE machines, so you can know exactly how much they have been used since you bought them. You can also check the workday log to get a detailed view of how many hours they have been used each day.

MACHINE LOCATION

It's easy to keep track of your Husqvarna K1 PACE battery cutters. As soon as a machine is within Bluetooth® distance from a smartphone with the Husqvarna Fleet Services™ app, its location is registered. So, if you're looking for a machine, just check the map to see if it is in the storage, away for service or out working.

SERVICE HISTORY AND NOTIFICATIONS

With Husqvarna Fleet Services™, you can have access to the service history for each machine and battery, making it much easier to keep track of status and troubleshoot, if necessary. You can also get service reminders based on actual running hours, to make sure you always keep your machine in top shape.

OUR PROMISE TO YOU

When you choose Husqvarna, you're opening up a world of opportunities. See how we can work together to make things smoother, easier and more productive for you. You can expect services that enhance the high output in your machines, your team and your business. Keeping you at the forefront. That's our promise to you.

GET YOURS TODAY!

If you're looking for a new power cutter, take a closer look at new Husqvarna K1 PACE. Try it and you will be surprised by the power and flexibility. Stop by your local Husqvarna representative and experience the difference.

POWERED BY

PACE

Powerful. Agile. Cordless. Electric.

Husqvarna K1 PACE is the start of a growing family of products in our new PACE Battery System, developed in-house by Husqvarna. Heavy-duty, battery-powered equipment that give you more freedom and flexibility – as you get tough construction tasks done with ease. Giving you new power and new possibilities.
